Low Battery: RED warning light

Environment: Temperatures -15° to +80° C
Humidity range 0 to 80%

L x H x W: 150 x 130 x 38mm

Weight: 400g without cartridges

Charger:

Supply: 110 to 240V AC

Charging: Indicator light on charger turns RED

Charge Complete: Indicator light on charger turns GREEN

Features

We believe that Raysun™ X1 is the world's most advanced multi-weapon for police and military security use, because it provides 6 different non-lethal means to locate, mark, stop and bring down your opponent at these ranges:

- Stun Probe, available for 5m or 6m
- Pepper Shot, best 10m, effective 15m
- Rubber Bullet, best 15m, effective 30m
- Paint Ball Marker, best 15m, effective 30m
- Direct-contact stun gun, 0m
- 1800CP ultra-bright Xenon spotlight, range 30m

In combat, do not shoot at your opponent's eyes because it could be lethal. Instead, aim at his “center of mass” (the torso); It is a larger target and therefore easier to hit.

When showing off Raysun, do not discharge it into empty air for longer than 2 seconds.

Operations Manual for the

Raysun™ XI

Non-Lethal Police Weapon

CAUTION :

Handle Raysun™ with the same caution and respect as a firearm.

Never aim Raysun™ at a human being unless you intend to fire it.

While carrying Raysun™ on your duty belt, remove the disarming pin and hang it on your wrist.
